Infantry of the British Army - Wikipedia

For British Indian Army units, see List of Indian divisions in World War II. Infantry. The "infantry division" was the backbone of the British Army. Its intended role was to breach the front line of the opposing force, to allow motorized infantry and armoured divisions to then breakthrough securing victory via superior mobility and firepower.

List of British divisions in World War II - Wikipedia

Less formally, it is a ruck march in the Canadian Armed Forces and the US Army, a tab in British Army slang, a yomp in Royal Marines slang, stomping in Australian Army slang, and a hump in the slang of the United States Marine Corps . As a civilian exercise, loaded marching comes under the category of ' hiking ',...

Loaded march - Wikipedia

The history of British light infantry goes back to the early days of the British Army, when irregular troops and mercenaries added skills in light infantry fighting. From the beginning of the nineteenth century, the Army dedicated some line regiments as specific light infantry troops, were trained under the Shorncliffe System devised by Sir John Moore and Sir Kenneth MacKenzie Douglas.

History of British light infantry - Wikipedia

In March 1806 the strength of British infantry was approx. 160,000 men , including the "prestigious King's German Legion." (Philip Haythorntwaite - "Wellington's Infantry (1)" p 11) In this number were included field units, depots, and garrisons.

British infantry : organization : tactics : uniforms

British made vehicles and metal items were dark green (Reflective Green). American made vehicles were olive green drab (US Dark Green 70.893). Insignia The unit badge was a curved shape at the top of the shoulder. For most infantry regiments this was red background and white text.
