I have been a hot mess lately. I can cry in an instant, get sentimental at every Christmas commercial, and did I mention my face has broken out like a teenager in puberty (ok, maybe I'm exaggerating a bit, but coming from a girl who gets three pimple a year, this is a serious issue)? I blame the hormones.

Blame it on the hormones Every craving, "mommy brain" moment, unsteady wobble, mountaintop high and abysmal low can be traced back to a gang of microscopic culprits—your hormones. With the exception of producing a few hormones unique to pregnancy, your body shifts into mama-mode by increasing the levels of hormones already present in your ...
