We manage to pay for practical military ordnance identification and numerous books collections from fictions to scientific research in any way. in the midst of them is this practical military ordnance identification that can be your partner.

OpenLibrary is a not for profit and an open source website that allows to get access to obsolete books from the internet archive and even get information on nearly any book that has been written. It is sort of a Wikipedia that will at least provide you with references related to the book you are looking for like, where you can get the book online or offline, even if it doesn't store itself. Therefore, if you know a book that's not listed you can simply add the information on the site.
