Science = art. They are the same thing. Both science and art are human attempts to understand and describe the world around us. The subjects and methods have different traditions, and the intended audiences are different, but I think the motivations and goals are fundamentally the same.

Why Art And Science Are More Closely Related Than You Think

The Science and Art of Herbalism Home Study Course is a ten lesson course taken at your own pace, with homework review and guidance provided by carefully selected herbalists and Rosemary herself. Though it thoroughly instills in the student the practical skills necessary to practice herbal home health care, it doesn't ignore the rich spirit and essence of herbalism.

The City of Arts and Sciences is a cultural and architectural complex in the city of Valencia, Spain. It is the most important modern tourist destination in the city of Valencia and one of the 12 Treasures of Spain. The City of Arts and Sciences is situated at the end of the former riverbed of the river Turia, which was drained and rerouted after a catastrophic flood in 1957. The old riverbed was turned into a picturesque sunken park. Designed by Santiago Calatrava and Félix Candela, the ...

Simon Phillips provides one of the most comprehensive looks at the art and science of recording drums ever undertaken. From tuning, to acoustics, to mic usage, to recording approaches, Simon and Alan provide the tools to getting a great drum sound - one of the consistently most elusive aspects of modern recording.

Alan Parsons' Art & Science of Sound Recording

Traditionally, art and science have been treated as two separate disciplines, but when they are studied together it’s clear to see the impact one has on the other. A great deal of creativity is required to make scientific breakthroughs, and art is just as often an expression of (or a product of) scientific knowledge.
